Summary

Computer Science undergraduate with strong foundations in full-stack development and problem solving. Experienced in building responsive web applications using React, Node.js, MySQL, and RESTful APIs. Proficient in HTML, CSS, JavaScript, and TailwindCSS, with a focus on scalable backend design and clean frontend architecture.

Technical Skills

Technical Skills: C++ , Python , HTML5, CSS3, TailwindCSS, React.js, Node.js, Express.js, REST APIs, JavaScript , MySQL

Cloud & Tools: AWS, Git, GitHub

Relevant Coursework: Operating Systems, Database Management Systems (DBMS), Computer Networks, Data Structures and Algorithms, Object-Oriented Programming

Education

B.Tech in Computer Science and Engineering

2023 – 2027

VIT Bhopal University

CGPA: 7.71 / 10

Class XII (CBSE)

2022

Kendriya Vidyalaya, Sehore

Percentage: 91.4%

Class X (CBSE)

2020

Kendriya Vidyalaya, Sehore

Percentage: 92.4%

Projects

SignBridge – Speech-to-Sign Language Conversion System 🌐

- Developed a real-time speech-to-sign language conversion system enabling spoken language to be visualized as sign gestures.
- Built a FastAPI backend for speech processing and gesture mapping with RESTful APIs for communication.
- Implemented real-time speech recognition and multi-language support using modern NLP tools.
- Designed an interactive React-based frontend with live visualization and microphone integration.

Farmify – Smart Agriculture Management System 🌐

- Developed a smart agriculture platform for crop scheduling, inventory tracking, and weather-based decision support.
- Integrated real-time weather data via external APIs to assist data-driven farming decisions.
- Implemented inventory management for seeds, fertilizers, and resource tracking.
- Built responsive UI using React and TailwindCSS with backend integration using Node.js.

Chemical Equipment Visualizer 🌐

- Developed an interactive web platform to visualize chemical laboratory equipment with structured descriptions.
- Built dynamic component rendering using React for modular equipment visualization.
- Designed a responsive and accessible UI using TailwindCSS.

Certifications

- **NPTEL – Machine Learning (2025):** Covered supervised and unsupervised learning, regression, classification, model evaluation, and practical ML concepts.
- **Google IT Support Professional Certificate :** Completed hands-on training in networking, operating systems, system administration, and troubleshooting.
- **NPTEL – Marketing Analytics:** Learned data-driven marketing strategies including customer segmentation, predictive analytics, and performance metrics analysis.

Achievements

- **CodeVita Hackathon 2025 – Top 10 Finalist:** Ranked among the top 10 teams for competitive programming and problem-solving.
- **Ideathon 2025 – Top 8 Finalist:** Selected in the top 8 teams for presenting an innovative technical solution among multiple competing teams.
